

Hafiz Abdullah Amjad

Full-Stack Engineer – Shopify Integrations & Technical Support

Lahore, Pakistan | +92 313 6491507 | Abdullah.Work123456@gmail.com

Portfolio | LinkedIn | GitHub

PROFILE

Full-Stack Engineer with 1+ year of production experience building and maintaining Shopify app integrations, including payment flows, REST/GraphQL APIs, and merchant-facing tooling. Skilled at debugging complex issues across browsers, APIs, and third-party systems using Chrome DevTools, network inspection, and stack trace analysis. Comfortable acting as the technical point of contact between engineering and clients, translating blockers into clear explanations and shipped fixes.

TECHNICAL SKILLS

Debugging & Support: Chrome DevTools (Console, Network, Sources), Stack Trace Analysis, Cross-Browser Testing (Chrome, Safari, Firefox), HTTP, CORS, Cookies & Sessions, Command Line (Bash)

Shopify & Payments: Shopify Admin API, Shopify GraphQL API, Liquid, Polaris, Webhooks, Metafields, Stripe Payment Integration

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, SQL

Frontend: React.js, Next.js, DOM, Responsive Web Design, Tailwind CSS

Backend: Node.js, Express.js, NestJS, FastAPI, RESTful APIs, GraphQL, JWT/OAuth 2.0

Databases & Tools: PostgreSQL, MongoDB, Git, Docker, CI/CD, Linux

EXPERIENCE

Full-Stack Software Engineer, Integriti, Lahore

Aug 2025 – Present

- Built and maintained 5 custom Shopify apps, including payment and checkout flows with Stripe, using Node.js, React (Polaris), and Liquid; integrated the Shopify Admin/GraphQL API for merchant workflow automation.
- Debugged and resolved production issues across browsers and environments using Chrome DevTools, network inspection, and stack trace analysis, keeping merchant-facing integrations stable as usage scaled.
- Served as the direct technical point of contact for clients, translating requirements into specs and communicating fixes and blockers clearly to technical and non-technical stakeholders alike.
- Designed REST APIs and backend services with Node.js and Python (FastAPI), backed by PostgreSQL, handling authentication (JWT/OAuth 2.0) and access control.
- Engineered responsive Next.js/React interfaces with cross-browser compatibility and performance in mind.

Software Engineering Intern, IPS Technologies, Lahore

May 2025 – Aug 2025

- Built reusable UI components and REST APIs using the MERN stack, debugging and optimizing production features alongside senior engineers.

PROJECTS

Bookify – Shopify Booking App with Payment Flow

Shopify Admin/GraphQL API, Node.js, React, Stripe, PostgreSQL

- Built a custom Shopify app handling real-time booking and Stripe checkout; used Shopify Webhooks to keep payment status and confirmations synced with the merchant's store.

Erkals Product Sync – Shopify Catalog & Inventory Engine

Node.js, Express.js, Shopify GraphQL/REST Admin API, Docker

- Built a cron-based ETL pipeline syncing high-volume supplier feeds into Shopify without hitting API rate limits; built a merchant-facing dashboard to trigger syncs and review logs.

EDUCATION

BS Computer Science, University of Management and Technology, Lahore

2022 – 2026

CGPA: 3.84
